

If you find yourself unable to make your mortgage payment, contact your lender. If you are having difficulty paying because of an injury or loss of job, ask your lender for a "financial hardship" package. If you are having difficulty paying because your monthly mortgage payment increased due to adjustable rate or interest-only loan, ask to see if the terms of your loan can be modified.

Do not be afraid to ask for help. Below you will find one of our many local housing counseling agency or attorney here to assist you.
