Re: Legislation for Appropriation of National Emergency Grant Funds  
First Reading Passage

Date: August 5, 2009

As requested at Monday night's Council meeting, please find enclosed a summary of grant situation (both NEG and Rapid Response) as it pertains to the displaced Twinsburg Chrysler Plant workers. Also enclosed is a break down of the displaced workers, by County. I have also included the budget documents that depict the amount of money that will be spent under the NEG grant over the eight quarters of the grant.

Please do not hesitate to contact either myself or Steve Zimmerman with any questions or concerns.

Thank you for your time and attention to this matter.

Chrysler Activities/Grant Award Status

- ✦ Monday, May 4<sup>th</sup>, the first town meeting was held in Twinsburg regarding recent and impending Chrysler layoffs/buyouts.
- ✦ Thursday, May 14<sup>th</sup>, the second town meeting was held.
- ✦ Monday, July 27<sup>th</sup>, a third town meeting will be held in Twinsburg.
- ✦ Several local task force meetings, including workforce and State staff from Summit, Portage, Cuyahoga, and Medina Counties, have been held.
- ✦ Approximately 1,200 workers will be dislocated.
- ✦ Approximately 600 workers have already accepted buyouts or been laid off.
- ✦ Approximately 500 additional workers are working now until the March 2010 Chrysler closing.
- ✦ Summit County has been awarded \$541,000 in National Emergency Grant funds to serve Chrysler dislocated workers over the next two-year span.
- ✦ The first allocation of \$140,000 will be appropriated by August 10<sup>th</sup>.
- ✦ This National Emergency Grant money may only be used for Chrysler and GM Lordstown dislocated workers. It cannot be used toward a transition center facility.
- ✦ An additional Rapid Response application for State funds will be submitted next week for \$1.6 million.
- ✦ Rapid Response funds can be used for a transition facility. These also can be used for any other tier 1, 2, & 3 workers that will be dislocated and impacted by Chrysler's closure, and all ripple effect dislocation.
- ✦ Additional local dislocated worker formula and ARRA funds exceed \$2 million.
- ✦ Transition Centers should be thought of as "mini satellite One-Stops".
- ✦ Our goal is to have a transition center in Twinsburg and in the Barberton area. The Twinsburg location will be accessible and convenient to dislocations from the entire region.
- ✦ In the very near future, the goal is to have at least a temporary transition center site and part-time services in Twinsburg.

Next Steps

1. Determine ODJFS and WIA staff representation for the transition center.
2. Determine a temporary site while we continue to secure a permanent transition center site (obtain a third quote?).
3. Purchase equipment to provide services, i.e., computers, training/job seeking materials, etc.
4. Plan for service provision (workshops, speakers, etc.)
