

The Summit County Medical Examiner's Office and the Twinsburg Police Department are trying to establish the identity of skeletal remains that were discovered in a remote area in the City of Twinsburg in February 1982.

The remains are that of an African-American male, who is estimated to be in his early 20's to mid 30's at the time of death. It has been estimated that he was deceased for 2-4 years prior to discovery.

A sketch, which is attached, was completed by a Forensic Facial reconstruction expert in the hope that someone may recognize him and contact either the Summit County Medical Examiner's Office at 330-643-2101 or Det. Sgt. Greg Feketik from the Twinsburg Police Department at 330-963-6221 or 330-425-1234.
