

Summit County Sheriff's Office
~is hosting~

**Regional Computer Forensic Laboratory
Federal Bureau of Investigation, Akron
Summit County Cyber Crimes Unit**

The RCFL in conjunction with the FBI CART is offering "**Free**" One Day Training at the Sheriff's Training Facility.

Sworn Law Enforcement Only

ImageScan 3 software

This software tool was created by members of the FBI's Computer Analysis Response Team specifically for "knock & talk" situations relating to child exploitation investigations. Once deployed, the software quickly identifies and isolates images on a suspect's computer and stores them on a USB device - without altering any files on the computer. ImageScan consists of a CD and a USB device. Provided by RCFL at the training.

Instructor: **Special Agent Michelle Lovejoy**

ImageScan brochure:

Contact: **330-896-4019**
Training Commander
Capt. Dale Soltis
dsoltis@sheriff.summitoh.net

Due to limited control and distribution of the software developed by CART, there will be a certification for use of this product. Therefore this training is being offered to sworn LEO only.
